ABOUT ME

I am a BCA student and Full-Stack Developer passionate about building clean backend systems and responsive web applications. I focus on writing tidy code, optimizing databases, and designing robust API routes. As an ambitious fresher, I actively apply classroom concepts into functional technical projects, and I am eager to contribute my development skills to a collaborative engineering team.

TECHNICAL SKILLS

Frontend Development: HTML, CSS, JavaScript, React, Tailwind CSS, Bootstrap

Backend Development: Node.js, Express.js, REST APIs

Database Systems: MongoDB, SQL

Programming Languages: C, C++, Java

Tools & Systems: Git & GitHub

TECHNICAL PROJECTS

Wonderlust

Full-Stack Web Application

- Built a complete, functional CRUD web platform from scratch where users can create, read, update, and delete listing records.
- Set up an independent backend routing system using Node.js and Express to handle user requests smoothly.
- Designed clean database structures with MongoDB and Mongoose to keep data organized and quick to retrieve.

Terminal Personal Portfolio

Web Interface

- Programmed a personal portfolio website stylized to look and feel like an old-school, retro command-line terminal.
- Tweaked and polished raw, plain JavaScript code so the page loads incredibly fast on both mobile phones and desktop browsers.

EDUCATION & ACADEMIC BACKGROUND

Bachelor of Computer Applications (BCA)

2024 — 2026

Forte Institute Of Technology

- Gained strong foundation in Data Structures (DSA) in Java, Object-Oriented Programming (OOPs), Database Management Systems (DBMS), and Operating System performance metrics.
- Actively participated in practical software labs, wireframe design, and continuous code tracking using Git and GitHub.

Secondary Education (Class XII)
